Nationality: Polish
Authorised to work in the UK

Address: 45 East Park Way
Wolverhampton,
WV1 2DN

PERSONAL STATEMENT

I am a self-taught, aspiring front-end developer who learns quickly, is ambitious and is not afraid of new challenges. The more I learn the more I am passionate about programming. I have a number of front-end projects on my GitHub that were implemented with use of modern **JavaScript** ecosystem like **React**, **CSS3** (including **flex-box**) and **HTML5**. I am constantly learning new technologies (recently **Next.js**). I am looking for a chance to join a collaborative team that will mentor me on my learning path by allowing me to apply my software engineering skills on daily basis.

RELATIVE EXPERIENCE

Personal Website - <https://macrapacki.github.io/Portfolio/>

My personal website which consists of description of my experience styled with SCSS and **toastify.js** and contact section with email sending feature implemented with **Formik** and **Email.js**. The website is hosted via GitHub Pages and can be accessed via the link above.

I used this project to learn **JavaScript**, **React (with hooks)**, **SCSS** and version control with **git** and **GitHub**.

Landing page with Next.js - <https://next-js-landing.vercel.app/>

Production grade landing page implemented with **React**, **Next.js** and **CSS Modules**. I was given Figma designed, and my task was to transform the design in a functional landing page. The page is **fully responsive** and optimized for any size devices. The page is taking benefit of **next/image** component that allows for out-of-the-box image rendering optimizations for different screen sizes.

Premier League Stats - <https://macrapacki.github.io/Premier-League-stats/>

I have created this small project with a goal to learn **fetch API** and consume the **JSON** data in a **React** application. Additionally, I used **React Router** to learn how to provide **Single Page Application** user experience.

OTHER EXPERIENCE

For the past seven years I was in full-time employment. I was working in various roles including customer-facing roles. Currently I am employed as CNC machines setter/programmer in the same company for the last four years. During my professional career I learnt a lot about engineering quality management and effective teamwork.

EDUCATION

Master of Sport (2010-2015)

Academy of Physical Education and Sport (Gdansk Poland)

- Certified football coach
- Certified wellness trainer
- Practices in sport rehabilitation

TECHNICAL SKILLS

- JavaScript
- HTML5
- CSS3 and SCSS (including modules)
- Responsive Design
- React
- Next.js
- React Router
- Styled Components
- Git and GitHub
- Fetch API
- JSON Parsing
- Figma
